**MMS - Microcontrollers Division (MCD)**

Dear Customer,

In an established manufacturing line, Quality and service are very dependent of production stability which is directly correlated to the volumes produced.

Some of our legacy products are produced in such volume that it will not allow us to guaranty the level of Quality and service market is requiring.

Therefore, we would like to inform you that ST MCD Division has decided to initiate the product termination of some standard 8bits legacy microcontrollers.

You will find here enclosed a list of devices that ST proposes for termination with their suggested replacement.

Should you have any question relative to product replacement, please refer to our ST sales representatives.

With our sincere regards.

Michel Buffa  
Microcontroller Division General Manager
