

Product/Process Change Notice - PCN 13_0085 Rev. -

Analog Devices, Inc. Three Technology Way Norwood, Massachusetts 02062-9106

This notice is to inform you of a change that will be made to certain ADI products (see Material Report). Any issues with this PCN or requirements to qualify the change (additional data or samples) must be sent to ADI within 30 days of publication date. ADI contact information is listed below.

PCN Title: AD7626 Metal Mask Revision

Publication Date: 24-Apr-2013

Effectivity Date: 23-Jul-2013 *(the earliest date that a customer could expect to receive changed material)*

Revision Description:

Initial Release

Description Of Change

This is a single layer metal change to a digital level shifter of the AD7626.

Reason For Change

The change ensures the AD7626 device powers up in a correct state when powering up in any supply sequence, supply ramps and specified absolute supply voltages.

Impact of the change (positive or negative) on fit, form, function & reliability

There is no negative impact on fit, form, function or reliability.

Product Identification *(this section will describe how to identify the changed material)*

This change is effective from date code 1318 onwards.

Summary of Supporting Information

This change has been verified through simulations, bench evaluation & production test

Supporting Documents None
